Privateer™ treats Localized Dry Spots (LDS) while increasing moisture uniformity in the root zone. Can be used as a curative or as a monthly program product.

Application & Use Guidelines
Apply 4 fl oz per 1000 ft² in minimum of 2 gal of water every 28 days. After application, irrigate sufficiently to remove product from leaf surfaces.
- For coarse soils/sand root zones: Use 1/3” irrigation water
- For fine textured soils: Use 2/10”-1/4” irrigation water

Mixing Directions
Mix Privateer in spray tanks with water and proper agitation.

Compatibility
Ocean Organics® Privateer is compatible with fertilizers and most turf chemicals but should not be mixed directly with other chemicals. Do not combine Privateer in a spray tank with pesticides or fertilizers unless prior use has shown the combination to be physically compatible, effective, and non-injurious under local conditions.

Storage and Disposal
Store in original containers. Keep container tightly closed. Protect from freezing. If product freezes, warm to room temperature and agitate before use. To avoid contamination, do not return previously mixed product to original container. Use product within 12 months of original purchase date. Do not reuse empty container. Small spills can be washed away with water. Large spills should be contained and salvaged. Disposal must comply with local, state and federal regulations.

FOR PROFESSIONAL USE
CAUTION. KEEP OUT OF REACH OF CHILDREN.
Avoid contact with eyes and skin. May cause serious eye damage. Wear chemical resistant goggles and gloves. In case of contact, flush eyes/skin with large amounts of water. If irritation persists, seek prompt medical attention.
May be harmful if swallowed. Do not ingest. In case of ingestion, drink two glasses of water and seek medical attention.
Refer to the Privateer Safety Data Sheet for further information: www.oceanorganics.com/oo_privateer.htm
Not for edible crop use.
