SeaBlend is a mixture of marine and land-based organic meals formulated with additional major and minor nutrients to promote and enhance plant growth. SeaBlend contains water insoluble nitrogen to prolong nitrogen availability.

SeaBlend meets the needs of cool and warm season turfgrasses. It provides a linear release of nutrients.

**Instructions for Use**

**Established Turfgrass and Landscape:** Use as a fertilizer for greens, tees, roughs, fairways and ornamentals, three to four times each season. For one pound of nitrogen, broadcast at a rate of 3.63 kg. per 93 sq. meters (8.33 lbs. per 1,000 sq ft.).

**New Turfgrass and Landscape Planting and Seeding:** Incorporate into top 2-4 inches of soil prior to seeding, sodding or sprigging and landscape planting.

**Application Coverage Rates**

For 1 lb. of N/1000 sq. ft. apply 8.33 lbs:

- 1 bag (50 lbs.) covers 6,000 sq. ft.
- 7.25 bags (363 lbs.) covers 1 acre
- 40 bags (1 ton) covers 5.5 acres.

**Application Guidelines**

- Apply when air temperatures are under 90°F.
- Irrigate after application.
- Do not apply when temperature plus humidity exceed 175.
- Do not exceed 8.33 lbs/1,000 sq. ft. in any single application.
- Do not drag around after aerification.
- To avoid mower pickup: apply SeaBlend, irrigate, let dry, then mow.

**Storage and Use**

Store in a dry location. Keep bag closed when not in use. Keep out of reach of children.

**CONDITIONS OF SALE:** The Manufacturer warrants only that product conforms to label description. Buyer and user agree to accept all liability associated with handling, use, and disposal of this product.
