SeaBlend® AS is an organic based granular fertilizer formulated to promote quick green up and growth on established turf. SeaBlend nutrients are derived from a blend of natural meals and high quality traditional fertilizers. The unique marine protein meals (fish, shrimp, lobster, crab, kelp) that are the organic base of SeaBlend provide highly diversified forms of nitrogen as amino acids along with other major and minor nutrients which become plant available over an extended time period.

Instructions for Use
Established Turfgrass and Landscape:
Use as a fertilizer for greens, tees, roughs, fairways and ornamentals. Ideal for application in Spring and/or Fall. To apply ½ pound of nitrogen, broadcast at a rate of 1.8 kg. per 93 sq. meters (4.16 lbs. per 1,000 sq ft.).

Application Guidelines
• Apply when air temperatures are under 75° F.
• Irrigate after application.
• Do not exceed 3/4 pound nitrogen per 1,000 sq. ft. in any single application.
