

# Guarantee<sup>®</sup> Bloom

## KELP EXTRACT-BASED FERTILIZER FOR FLOWERING PLANTS

**Guarantee<sup>®</sup> Bloom Kelp Extract with Micronutrients** is a premium liquid foliar fertilizer formulated to provide maximum blooms and vigorous plants. The product is primarily kelp extract which promotes root growth, bloom set and vibrant, stress-resistant plants. Foliar-available phosphorus produces more and bigger blooms.

### Application Guidelines

#### Roses, Gardens, Flowering Plants:

**Standard Mixture – Mix 2 oz\* (60 mL) of Guarantee<sup>®</sup> Bloom in 1 gal (3.8 L) of water.**

Wet plants until solution runs off leaves and apply to soil around plant base. For large areas, use hose-end, pump or backpack sprayer. One gallon of Standard Mixture will cover 100 ft<sup>2</sup> (9.3 m<sup>2</sup>). Apply 2 times monthly during growing season.

#### Indoor Plants:

**Apply 1-2 times per month throughout year.**

**For Best Results** – Spray early in the morning or late in the day. Cover plant surfaces fully. If applying to soil instead of using as foliar spray, use sufficient mixture to fully wet root area.

### Storage and Use Precautions

Store away from sunlight. Do not store below 10° C (50° F). Keep cap closed. Shake before each use. (Some natural settling may occur.) Mixing with other liquid fertilizers is not recommended.

\* 2 fl oz equals 4 tablespoons

### Caution

**Keep Out of Reach of Children.** Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If irritation occurs, seek medical attention.

Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other intended plants during the course of the year.
