

# DeSal<sup>®</sup>

## SOIL ADDITIVE

**DeSal<sup>®</sup> is a proprietary soil additive.**

### Directions for Use

**For saline and/or sodic soils:** Apply 24 oz. per acre (0.5 oz. per 1000 ft<sup>2</sup>) every 21 days. Following treatment, apply adequate irrigation to wash product from leaf surfaces into the soil. Follow with a flushing irrigation appropriate for the soil type within 24 hours. **DeSal** may be applied with irrigation water or in combination with fertigation.

To enhance movement of salts away from the root zone, tank mix with a wetting agent (penetrant) at recommended label rates. Follow post-treatment irrigation recommendations.

Sound management practices suggest a jar test for tank mix compatibility.

### NON-PLANT FOOD INGREDIENT

40% Natural Carboxylic Acids

60% Inert Ingredient

### Storage and Disposal

Keep from freezing. Dispose of empty containers by triple rinsing with detergent solution or puncture and discard empty containers in a landfill in accordance with local, state and federal policies.

### Caution

**KEEP OUT OF REACH OF CHILDREN.**

Use caution when opening. Wear goggles and gloves when handling. Wash thoroughly after handling. Harmful if inhaled or absorbed through skin. Causes eye and skin irritation. Avoid breathing fumes. Keep container closed when not in use. Use with adequate ventilation.

**CONDITIONS OF SALE:** The Manufacturer warrants only that product conforms to label description. Buyer and user agree to accept all liability associated with handling, use, and disposal of this product.

NOT FOR USE IN ORGANIC CROP AND ORGANIC FOOD PRODUCTION IN THE STATE OF CALIFORNIA.

Florida: F 1762
