

NuRelease[®]

SOIL AND FERTILIZER ADDITIVE

NuRelease[®] is a soil and fertilizer additive. NuRelease is formulated to enhance solubility and uptake of plant nutrients.

Application Guidelines

AS A SOIL APPLIED TREATMENT

Apply 32 oz per acre (0.8 oz per 1,000 ft²) monthly and water into the root zone.

AS A FERTILIZER TANK-MIX ADDITIVE

U.S. Measure: For one acre: apply 16 oz monthly.

For 1,000 ft²: apply 0.4 oz monthly.

Metric: For 93 m²: apply 12 ml monthly.

For .405 hectares: 473 ml monthly.

If you are applying foliar fertilizers and nutrients more frequently than once per month, divide the **NuRelease** monthly rate by the number of applications per month, and apply that amount each time.

NON-PLANT FOOD INGREDIENT

40% Natural Carboxylic Acids

60% Inert Ingredient

For example, if you foliar feed golf course greens every two weeks, apply 0.2 oz (6 ml) of **NuRelease** per 1,000 ft² each time.

Compatibility

Sound management practices suggest a jar test for tank mix compatibility.

Storage and Disposal

Keep from freezing. Dispose of empty containers by triple rinsing with detergent solution or puncture and discard empty containers in a landfill in accordance with local, state and federal policies.

Caution

KEEP OUT OF REACH OF CHILDREN.

Use caution when opening. Wear goggles and gloves when handling.

Harmful If inhaled or absorbed through skin. Causes eye and skin irritation. Avoid breathing fumes. Avoid contact with eyes, skin and clothing. Keep container closed when not in use. Use with adequate ventilation. Wash thoroughly after handling.

CONDITIONS OF SALE: The Manufacturer warrants only that product conforms to label description. Buyer and user agree to accept all liability associated with handling, use, and disposal of this product.

NOT FOR USE IN ORGANIC CROP AND ORGANIC FOOD PRODUCTION IN THE STATE OF CALIFORNIA.
