

XP Extra Protection™

FOLIAR FERTILIZER FOR SUPERIOR STRESS MANAGEMENT

Application Guidelines

For Turf and Ornamentals: Apply 177 ml. per 93 meters² (6 oz. per 1,000 ft²) every 14 days during the growing season. For large areas, apply 7.6 liters per 4,047 meters² (2 gal. per acre).

Apply in the early morning or late afternoon for best results. Use a surfactant for superior coverage.

Allow foliar product to dry on plant prior to irrigation.

Mixing Guidelines

Shake or agitate before use. Fill mix tank with half of required spray water and turn on agitation. Measure product into tank, add remaining water and other soluble materials. Add a defoaming agent if desired, and adjust pH of tank-mix to neutral if necessary.

Compatibility

Ocean Organics products are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Mix in spray tanks with water and proper agitation. Conduct a jar test as needed to ensure compatibility with other products before tank mixing.

Storage and Use

Store in original containers at temperatures between 10°C and 35°C (50°F and 90°F). To avoid contamination, do not return previously mixed product to original container. Use product within 12 months of original purchase date.

Caution

KEEP OUT OF REACH OF CHILDREN.

Harmful if swallowed. May cause irritation. Avoid contact with eyes, skin, and clothing. Wear chemical resistant goggles and gloves. Do not take

internally. Avoid inhaling mist or vapor. In case of contact with eyes, flush eyes with water for 15 minutes. If irritation occurs, seek medical attention.

Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by intended plants during the course of the year.
