

TopSail® Turf Surfactant

Fine Textured Soil Fairway Surfactant

TopSail® is our unique blend of surfactant molecules for use on fairways and fine textured soils. Topsail can be used as a program product and/or a delivery agent for individual sprays (16oz/acre rate). Topsail addresses soil moisture problems on hillsides, mounds, and other difficult to access areas. It can be injected or sprayed.

Benefits:

- Greatly increases penetration of applied water and rainfall (3 times faster infiltration rate vs. the competition)
- Improves irrigation efficiency
- Enhances the efficacy & control of fertility & pesticide programs (reduces leaching)
- Can be sprayed or injected

Use Rates:

Spray: 32 fl oz per acre every 28 days. After application, irrigate sufficiently to remove product from leaf surfaces.

For coarse soils/sand root zones: Use 1/3" irrigation water

For fine textured soils: Use 2/10"-1/4" irrigation water

For Injection: Apply 4-8 oz per acre once a week.

Packaging:

2x2.5 gal cases, 30 gal drums, 55 gal drums, 275 gal totes

Ocean Organics...

is synonymous with plant fitness. We design materials that maximize plant health, hardiness, performance, stress tolerance and quality. The Ocean Organics Surfactant Line provides you with ideal playing conditions and the uniform root zone soil moisture that every plant craves.
